SeCan is western Canada's largest supplier of certified seed. Whether it's spring wheat, durum wheat, general purpose, CPS or winter wheat seed – we've got you covered. SeCan member companies also distribute the dominant varieties of malt barley seed, feed barley, flax and forages. New to the Prairies is SeCan's leading line-up of Genuity® Roundup Ready 2 Yield® or RR2Y soybeans. Our high yielding varieties are locally grown, processed, recommended and sold across western Canada.

You've found the best place on the web for: high yielding, performance-tested, winter hardy, spring vigour, lodging resistant, excellent milling quality, leaf disease tolerance, fusarium tolerant, improved fusarium rating, ideal kernel size, early heading date... certified seed varieties!
